Draft (sterndrive, drive up)	21"	.53 m
Draft (outboard, motor down)	30"	.76 m
Draft (outboard, motor up)	19"	.48 m
Weight, dry (sterndrive)	5,300 lbs	2,404 kg
Weight, dry (outboard)	4,900 lbs	2,223 kg
Bridge clearance	9' 11"	3.0 m
Fuel capacity	116 U.S. Gal	439 L
Water capacity	30 U.S. Gal	114 L
Hot water tank	3 U.S. Gal	11.4 L
Holding tank capacity	11 U.S. Gal	42 L

The all-new Cutwater 242 Sport Coupe (C-242 SC) is the *open* version of our popular Cutwater 242 Coupe. Speed, comfort, value, and FUN all combine for a boat ownership experience of a lifetime. Whether you're new to boating, looking for the perfect fishing machine, or enjoying water-sports with the family, the Cutwater 242 Sport Coupe will fit the bill.

The C-242 SC is named for its open, airy design that truly brings the outside in. The roof, side windows, and rear bulkhead all open with removable enclosures that are perfect for keeping you close to the action. The forward cabin features wrap around seating and a high/low table that drops to complete the forward berth. The C-242 SC provides all the comforts of home with a private head, two sinks with hot and cold water, drop-in bbq grill, microwave, and TV/DVD combo. The six-speaker Fusion entertainment system comes complete with sub-woofer, Bluetooth connectivity, radio, and aux input. The C-242 SC is also available with optional generator and air conditioning. If fishing is your game, you'll be excited to hear that the outboard-powered C-242 Sport Coupe comes standard with a 2,000W PSW inverter, live well, fish box, and sink integrated into the transom. Four rod holders are also standard on the Cutwater 242 SC.

Powered by a Volvo 240 HP Duoprop sterndrive or optional Yamaha 300 HP outboard, the C-242 SC is fast and efficient. The advanced hull design of the Cutwater 242 SC incorporates a complex combination of a 24° deep-V hull for a smooth ride, an 11° keel pad for planing stability, and reversed chines for quick planing, and reduced cornering roll. The double-stepped hull increases efficiency and performance, reducing fuel consumption and contributes to her quick time to plane. The C-242 SC hull also incorporates our patented Laminar Flow Interrupter technology for smooth, positive cornering.

Cutwater 242 Sport Coupe

Standard Equipment

Performance

240 HP Engine (std) Volvo gasoline V-6, fuel injected,
 DuoProp sterndrive
 Double-stepped hull for increased efficiency and performance
 Fresh water cooling (sterndrive model)
 Full color electronic engine control display
 Laminar Flow Interrupters for smooth positive cornering (patented)
 Single lever, electronic shift and throttle control
 Trim tabs

Boater Features
